## Warm Debilitating Weather.

Many people, after a long spell of  
oppressive heat, suffer from lassitu-  
tude, loss of spirits, and a general  
"run down" feeling. They need a  
course of Ayer's Sarsaparilla, a  
medicine which has revived and  
restored to active life and health  
thousands of such sufferers. A lady  
recently returned to England from  
South Africa writes concerning this

## "Wonderful Medicine"

"While in Cape Town the past  
summer I suffered greatly from the  
long-continued heat. I was com-  
pletely worn out; my blood seemed  
to become as thin as water, and I  
lost all energy and interest in life.  
My friends recommended Ayer's  
Sarsaparilla, and a course of this  
wonderful medicine restored my  
health and spirits. My husband suf-  
fered in the same way as I did,  
though not to such an extent, and  
he also was greatly benefited from  
the use of

## JAPANESE IMMIGRANTS

### GENERAL OPINION THAT THEY WILL YET BE LANDED.

Interviews With Prominent Officials  
and Others on the Question—  
More Investigating Going On.

The general talk about town  
this morning is that the Japanese  
immigrants whom the Supreme  
Court decided yesterday had no  
right to land will be landed in  
spite of the decision and that  
Collector-General Castle will re-  
scind his former rulings. What  
influence is being brought to bear  
to cause this change in the pro-  
gram cannot be ascertained. By  
some it is credited to Minister  
Damon's influence, the assertion be-  
ing freely made that that official is  
opposed to deporting these Japa-  
nese and in favor of avoiding any  
risk of trouble with the Japanese  
Government about a few immi-  
grants. Again, it is said that cer-  
tain influences are being brought  
to bear on the Executive by which  
all of these immigrants may be  
apportioned among the plantations  
and allowed to land on condition  
they sign contracts.

On the other hand should the  
Collector-General reverse his de-  
cision and allow the immigrants to  
land, either as contract laborers or  
otherwise, it is certain to cause  
more or less friction between the  
government and many of its best  
and most substantial supporters  
who believe that the time has now  
come to settle the question whether  
Japanese will be allowed to over-  
run this country at will or not.

With a view to ascertain as much  
of the truth as possible of what is  
actually going on in the inner cir-  
cles a BULLETIN reporter was de-  
tailed to interview as many of those  
concerned in the matter as could  
be seen.

Collector-General Castle was  
first seen. He had nothing to give  
out for publication, in fact he  
knew nothing about what was to  
be done. The matter had gone to  
his superiors and they would de-  
termine it. Whatever decision was  
arrived at he would be bound by  
and would carry out.

A. S. Humphreys, attorney for  
the Japanese Legation, was next  
seen. He said there were no  
new developments on his side  
of the case. Certain repre-  
sentations had been made to the  
government on behalf of the  
Japanese which he thought would  
alter the status somewhat. From  
what he had learned he was of the  
opinion that the so-called investi-  
gation made on behalf of the Col-  
lector-General had been too hur-  
ried and one-sided to get at the  
fact, and that this would become  
more and more apparent as suc-  
ceeding investigations were held.  
"Why," said the attorney, "Min-  
ister Cooper found one lot of  
thirty men and seven women  
who were here with contracts for  
service with Theo. H. Davies &  
Co. Their papers were perfectly  
regular and their immediate re-  
lease was ordered by the Minister.  
And yet these same thirty seven  
were in the list that the captain of  
the Shinshiu Maru was ordered to  
take back by the Collector-General.  
I have no doubt there will be  
others landed besides where mis-  
takes have been made. What  
course the Japanese Legation will  
pursue is a matter I cannot go in-  
to; indeed, I can tell nothing  
about it until the Executive has  
more fully defined its position.

Minister King was seen this after-  
noon. He said there were no new  
developments nor were there any  
likely before tomorrow. Minister  
Cooper was investigating the mat-  
ter on behalf of the Cabinet and  
there would be nothing done until  
he made his report. There had been  
no Cabinet meeting yet held on  
the subject, but it was likely the  
whole case would come before the  
Cabinet and be settled whenever  
Minister Cooper got through his  
investigation.

Port Surveyor Stratemeyer said  
all was quiet among the Japanese  
at the quarantine station. As far  
as he knew there would be no  
trouble with them whatever de-  
cision was arrived at. He thought  
they were getting a little restive  
over the repeated examinations to  
which they were being subjected,  
not being able to understand their  
true purport.

Minister Cooper could not be  
seen, as he went over to the quar-  
antine station at 10 o'clock in  
company with Collector-General  
Castle, Stenographer Marx and  
Adams and Interpreter Doyle, and  
had not returned up to press time.

With regard to the stories in  
circulation to the effect that Min-  
ister Damon had made any prom-  
ises to the Japanese Consul Gen-  
eral or that he had declared him-  
self in favor of landing the Japa-  
nese, the BULLETIN is enabled on  
the very highest authority to state  
that they are utterly without  
foundation and absolutely untrue.

### GERMANY AND SIBERIA

German Merchants are Urged to be Up  
and Doing.

An exchange says: The com-  
mercial world are watching with  
considerable interest the policy  
which is being pursued by Ger-  
many with reference to possible  
trade openings in Siberia. As the  
railroad across the Russian Em-  
pire to Vladivostok nears com-  
pletion, interest in its importance  
grows. According to a report of  
Mr. Monaghan, United States  
Consul at Chemnitz, editors of  
leading papers are putting the  
German people on guard. They  
want them to wake up and work  
hard to get the advantage. They  
urge the folly of waiting till others  
have gone in and gathered the best  
pieces. They point out the em-  
pire's losses, because she be-  
gan her colonial policy too  
late. This is cited as an elo-  
quent illustration of what a  
stupid conservatism and hesitating  
policy brings. They urge the  
sending of an able Consul to Vla-  
divostok, to represent and look  
after German interests. The city  
is to be the terminus of this great  
transcontinental line. It is to  
be the great commercial port of  
that part of the world. It is urged  
that a Consul be sent who has the  
capacity to examine and compare  
—a man who can and will give all  
his time for the good of his own  
country. They do not want a  
merchant living in Vladivostok  
to be made Consul, for his time,  
they argue, will be too much taken  
up with his own affairs. "We  
want someone," they say, "who  
will go over all the ground care-  
fully, study it in detail, reporting  
to the home Government as often  
as he finds anything worth tel-  
ling."

### LOWERING A GRADE.

Another Slice Coming Off the Leleu  
Hill.

Work is in progress for lower-  
ing the grade of King street north  
at Leleu, a gang of prisoners be-  
ing employed making the coral  
covering fly. This is where a slice  
was taken off some years ago, the  
hollow by the Chinese theater be-  
ing raised at the same time. There  
was some litigation on that oc-  
casion, a property owner bringing  
suit for damages, on account of  
his frontage being hoisted in the  
air. In connection with the pre-  
sent operations of the Road Bu-  
reau, the Hawaiian Tramways  
Company is relaying its track  
at King street bridge. The which  
has been taken out and passengers  
have to change cars, involving a  
walk of about 100 yards from one  
car to another. If the work is to  
be as slow, proportionately, as  
that of putting in a new switch on  
Beretania street lately, the public  
may expect to be inconvenienced  
by it for two months at least. Ap-  
pearances are that this will be a  
much slower job than that other,  
for a more broken-down-looking  
gang of Japs than is employed  
could not be mustered in a day's  
travel.

## UNITED STATES SENTINEL

### ARRIVAL OF THE MARION TO RELIEVE THE ALERT.

She's an Old Acquaintance Her Ar-  
rivalment and Comple-  
ment

From an early hour this morn-  
ing, when the U. S. S. Marion was  
sighted off Koko Head, many peo-  
ple on the city front were watch-  
ing for the old war vessel. About  
11 o'clock she was off the harbor,  
and at noon was anchored safely  
in naval row near the U. S. S.  
Alert.

The Marion reports leaving San  
Diego on Feb. 27. Fine weather  
was experienced during the whole  
voyage. Off the islands life boat  
drill was had. Just before reach-  
ing the harbor today, something  
went wrong with the engines. The  
tug Eleu put a hawser aboard the  
warship and towed her into port.

The Marion is an "old timer."  
She is built of wood, painted  
black, and is the same style as the  
Adams. The Marion is not a  
stranger at Honolulu, having been  
here before some years ago. There  
are 155 sailors and 24 marines  
aboard, besides the officers. One  
8-inch muzzle loading rifle, six  
9-inch smooth bore cannon, one 6-  
pounder and a number of smaller  
pieces constitute the armament.

Following is a list of the officers,  
some of whom are well acquaint-  
ed in this city: Commander, Jas.  
G. Greene; Lieutenant Comdr.,  
J. K. Cogswell; Lieutenants, E. F.  
Quattrough, H. M. Dombagh, F.  
W. Kellogg, W. C. P. Muir, J. M.  
Ellicott; Ensign, C. J. Lang;  
Chief Engineer, W. H. Nauman;  
P. A. Paymaster, T. H. Hicks;  
1st. Lieut. L. H. Moses, U. S. M.  
C.; Surgeon, C. P. Bagg; Gunner,  
R. Sommers; Boatswain, S. R.  
Boland; Sail maker, M. P. Barr,  
Carpenter, B. F. Markham; Pay  
Clerk, G. F. Southgate.

The length of the Marion's  
stay at this port is indefinite. She  
is here to relieve the U. S. S.  
Alert.

### ILLNESS OF CHIEF JUSTICE.

No Session of Supreme Court Today in  
Consequence.

Chief Justice Judd being un-  
able to take his seat this morning  
on account of illness, the Supreme  
Court adjourned until 10 o'clock  
tomorrow morning.

J. K. Prendergast vs. T. P. Sever-  
in, assumpsit, was tried by Judge  
Carter this morning. Judgment  
was given for plaintiff for the  
amount claimed, \$11, interest and  
costs. Kaulia for plaintiff; Davis  
for defendant.

### Valuable Number.

The Planters' Monthly for  
March just issued contains P. C.  
Jones, paper on Profit Sharing  
entire, of which a summary was  
given in the BULLETIN last month.  
It has also a letter from J. B.  
Castle on the same subject. One  
of the most interesting articles is  
an editorial on "Successful Graft-  
ing of Sugar Cane," showing how  
Mr. Whitney the editor, when a  
planter on Hawaii, produced a  
hybrid cane which was called after  
him, has proved a superior plant  
for uplands, and is now the prin-  
cipal crop on Pahala plantation.

### New Forestry Station.

Commissioner Marsden took a  
wheel ride to the pali today, to see  
how the new forestry station build-  
ings were coming on. He found  
that they would be finished Mon-  
day or Tuesday. They consist of  
a comfortable family cottage for  
the forester, a house for the Japa-  
nese mechanic and a propagating  
house. The last will have room  
for 150 boxes of young seedlings.  
This station is not a nursery of  
plants and flowers for distribu-  
tion, as some have supposed, but  
for forestry purposes pure and  
simple.

### "DOING" THE CUSTOMS.

Clever Scheme of a Belgian Merchant  
for Revenge.

According to the story told by  
the Brussels correspondent of the  
Pall Mall Gazette, a glove mer-  
chant in that city imported one  
thousand pairs of gloves. The  
Customs appraiser considered them  
declared at too low an estimate,  
and the Treasury took the goods,  
paying the merchant the price at  
which the goods were declared.  
By this operation the merchant  
lost a heavy contract, and made  
up his mind that the Treasury  
should suffer. Another case of the  
same quantity was addressed  
to him and declared at the same  
value as the former. Again, and  
much in anger, the officials seized  
the goods, paying the merchant  
the declared value, which was in  
reality the exact price at which  
they were invoiced to him. The  
day came for them to be sold.  
Several glove merchants went to  
the warehouse ready to purchase;  
but, to the utter dismay of the  
officials, and especially of the  
particular appraiser who had ex-  
ercised his right of pre-emption,  
it was discovered that all the  
gloves were left handed. There  
were no buyers. Shortly after, a  
seemingly disinterested little man,  
who appeared more like an "old  
clo" merchant than anything  
else, went to the warehouse and  
said he had heard that some  
gloves were lying there which  
were unsaleable; what could he  
have them for? "Oh!" replied  
the appraiser, "if you will pay the  
storage and cartage you may take  
them away." This was done  
without hesitation, and in three  
hours they were safely lodged in  
the warehouse of the original  
glove importer. A month after-  
ward 1000 right hand gloves ar-  
rived, addressed to the same mer-  
chant. They were passed without  
demur. This (adds the corres-  
pondent) is the usual result when  
a Belgian official tries to be  
clever.

### JAPANESE MEETING AGAIN.

Their Consul-General Asked to Com-  
municate With His Government.

There was a second meeting of  
Japanese last night at their hall  
over Luce's store to discuss the  
decision of the Supreme Court on  
the Shinshiu-maru's immigrants.  
The proceedings were orderly, al-  
though some of the speeches made  
were quite bumptious.

Mr. Takezawa presented the  
following resolutions, which were  
adopted and the meeting came to  
an end:

"Whereas, We cannot find right  
reason for the action of the Gov-  
ernment of Hawaii in refusing to  
permit the immigrants from the  
Shinshiu-Maru to land here, and  
"Whereas, According to the de-  
cision of the Supreme Court, the  
Japanese citizens of Hawaii are de-  
nied the protection of the law in  
their individual rights, and  
"Whereas, This action of the  
Republic of Hawaii is in contra-  
vention of the 'most favored  
nation clause' in its treaty with  
Japan, and  
"Whereas, We consider that  
this action establishes a precedent  
for all future cases; therefore, be  
it

"Resolved, That the Japanese  
residents in Honolulu communi-  
cate through their Consul with  
the Government of Japan, stating  
the facts of the case and abide by  
the decision of the officials in  
Tokio."

### Delinquent Taxes.

In another column Tax Asses-  
sor Shaw calls for tenders for  
publishing the Delinquent Tax  
List for the year 1896, in the En-  
glish and Hawaiian languages in a  
weekly newspaper. Persons who  
are behindhand with last year's  
taxes should make a note of this  
fact if they do not wish their  
names printed once a week for  
four weeks.

## THE BOARD OF HEALTH

### MEMBERS ACT AS EXPERTS ON JAPANESE KIMONOS.

Matters at the Leper Settlement—Re-  
ports from the Slaughter Houses  
and Fish Market.

In the absence of Minister  
Cooper, Dr. Emerson presided at  
the meeting of the Board of  
Health yesterday afternoon, there  
being present besides the chair-  
man members Lausing, Keliipio  
and Wood, Secretary Wilcox and  
Agent McVeigh.

Ministers of preceding meeting  
were read and approved.

The usual report from Dr. Mon-  
sarrat on animals slaughtered be-  
tween March 3 and 17 was receiv-  
ed; also his report under the Act  
to Mitigate.

Inspector Keliipio reported the  
examination of 30,363 fish during  
the week ending March 10 and  
48,128 for the week ending yester-  
day.

Mrs. Emilie Macfarlane's report  
of receipts and disbursements of  
the Maternity Home was received  
and filed.

Dr. Eldredge, medical inspector  
for the Hawaiian Government at  
Yokohama, sent an elaborate re-  
port showing the progress of the  
smallpox epidemic in Japan.

The report showed that between  
February 5 and 22 there had been  
a total of 8676 cases of smallpox  
in the Japanese Empire, with 2026  
deaths. Dr. Eldredge also sent  
an elaborate statistical report on  
infectious diseases in the Empire.

An application was received  
from Henry C. Watt, L. S. A., for  
permission to practise medicine  
in the Hawaiian Islands, which  
having been favorably passed on  
by the Board of Examiners was  
granted.

The application of a native to  
go to Molokai as kokua for his  
wife was denied.

Agent Meyer of the Leper Set-  
tlement made his usual report on  
the condition of affairs at that  
place. A petition from a num-  
ber of lepers asking for the ex-  
pulsion of C. Kopena from the  
Leper Settlement was referred  
back to await the action of the  
District Magistrate. Two cases  
of reported leprosy were ordered  
to present themselves for exami-  
nation at the next regular exami-  
nation.

The Secretary was ordered to  
advertise for bids for supplying  
the Leper Settlement with beef,  
tenders to be opened on March  
31.

The Board then went into  
committee of the whole on the  
bids for Japanese kimonos and  
on motion accepted the bid of  
Yanase & Co. for 500 at 60 cents  
each.

The bill of the Hawaiian Ga-  
zette Company for printing 500  
copies of the laws and rules per-  
taining to the Board of Health  
was allowed.

The regular order of business  
being ended the Board went into  
executive session and the reporters  
were dismissed.

### Cricket Match.

A cricket match will be played  
at 2 o'clock Saturday between the  
New and the Old teams, the base-  
ball grounds being kindly granted  
for the event. The eleven will  
be composed of those attending  
out of the following lists:

New Team—Dr. Murray, C. H.  
W. Norton, W. Thompson, J. Cat-  
ton, Davey, L. Ahlo, W. L. Stan-  
ley, D. Shanks, A. R. Hatfield, D.  
Ross, S. Woods, A. St. M. Mackin-  
tosh, H. Herbert.

Old Team—Rev. V. H. Kiteat,  
W. C. Weedon, W. Lishman, R.  
Mossman, J. Lightfoot, J. Jordan,  
R. Scrimgeour, W. H. Wright, Dr.  
Watt, D. Logan, A. M. Hewett, H.  
Vincent, Shillito, Scanlan.
